

VISCOUNT AOKI TO BE RECALLED

As Japanese Ambassador At
Washington According To
Tokio Paper

States state department officials and members of the diplomatic corps were much interested to-day in the statement in a Tokio newspaper, "The Hochi," that the Japanese government would probably recall Viscount Aoki, the Japanese ambassador, and is considering the appointment of Baron Kaneko as his successor. Officials of the Japanese embassy say that the progressive party has taken

pretext in an effort to bring about the downfall of Viscount Aoki, and it is asserted here that Marquis Ito has been inimical to Viscount Aoki, the news would not be first announced to the world through the columns of

Since his visit to the United States when the peace conference was being conducted at Portsmouth, Baron Kaneko, it is said, at the embassy, has had a great ambition to represent Japan as the ambassador at Washington. He was graduated from Harvard university and he enjoys President Roosevelt's friendship. Baron Kaneko is not a member of the anti-administration party. He is a member of the privy council and a loyal supporter of the Saonji ministry, and his appointment as ambassador to the United States, it is said, would not

The recall of Ambassador Aoki, it

The Japanese government and other Japanese statesmen who have strongly criticized the administration of diplomatic affairs in the United States, and the late Prime Minister Aoki has been strongly opposed by the Japanese of the Pacific coast, to Motokata Tomomaka, the personal representative of the Japanese government in Seattle several weeks ago, and returned to Tokyo with the report of Messrs. Takahashi and Noda, the special envoys, who were sent to Washington to negotiate with the Japanese embassy, has had several interviews with Foreign Minister Hayashi and the chief of state regarding conditions in the United States. In view of cable advices received here, Tomomaka has charged Ambassador

At the Japanese embassy Secretary Hanahira said to-day: "Ambassador Aoki does not care to dignify the

emies even with a denial. The progressive party in Japan have taken the San Francisco disturbances as the pretext to stir up agitation in

Japan, which is directed at the present minister, and they, no doubt, would be glad to see Viscount Aoki recalled. Baron Kanako has long had a desire to enter the diplomatic service, and it is very natural that he should desire the Washington mission. Ambassador Aoki has received no intimation from Tokio that the government contemplated his removal."

Aoki was for a long time minister of foreign affairs. Kanako for a short time was minister of justice and commerce and agriculture. Aoki is identified as a long-standing diplomat, while Kanako is a politician."

STRATHCONA NEWS

STRATHCONA WINS FOOTBALL GAME

Defeating the Caledonians of Edmonton by a Score of 3 to 0.

Before the largest number of spectators of the season at the Agricultural grounds last night the Strathcona City Football team defeated the Caledonians of Edmonton by a score of 3 to 0. There was considerable interest in the game as each team had previously met only one defeat this season. In the first half Strathcona scored the first score of the period in about ten minutes after play started. In the second half Strathcona scored again in about ten minutes after and notched up a third before the call of time. A. Bisset and Judge doing the needful. In the first half a mix-up occurred between a member of each team and a third man, a Caledonian, in endeavoring to part the Caledonians received a severe cut on the eye which put him out of the remainder of the game. The Strathcona team played ten to eleven men. The teams lined up as follows:

ANGEL'S DRAMATISTS.

The Angel Comedy company made their first appearance last night in this city in the Edmonton opera house and rendered a successful performance to the satisfaction of a fairly large audience. The bill included a most little drama entitled, "In the Heart of the Bluebird," and a number of other specialties between acts. The scene of the drama is laid in Tennessee and involves a clever plot when the climax is well sustained until the third act, leaving the fourth an appropriate close. Throughout the development of the plot the ever-ready pace question of the south adds to the background of the action of the play.

The players are among the best that have visited the city. Their acting is devoid of the conventionalities that a number of cheap actors are apt to fall off on the hamper. Each player last night indicated a maturity and finish in an act and interest of the subject in hand. The foremost actor undoubtedly was Jack Emerson, as Jack Rose, in the hero role. Jack Rose is a western bird of fortune, and a clever plot when the climax is well sustained until the third act, leaving the fourth an appropriate close. Throughout the development of the plot the ever-ready pace question of the south adds to the background of the action of the play.

The C.N.R. announce their summer rates to the end of this week. Rates to the Edmonton fair will be a fare and a third from any part of the west. The rate to the Winnipeg fair is scheduled at \$22 return, leaving as early as July 24th and returning as late as July 25th. The rate to Toronto and Montreal is \$26.40.

For some time past a number of householders on 21st street, north of Jasper, have been digging the black clay from the street and selling it around the city to householders for the building up of lawns and flower beds. A few days ago the city detective arrested some men in the midst of their operations and as a result of his discovery they will appear at the police court tonight and answer a charge of theft preferred against them for the city.

The man was still of the opinion that he could procure the money and asked to be allowed to visit the Fergusons hotel. He was allowed to enter the hotel, but in an instant disappeared through the back door. Officer Harris was on his track in an instant, however, and he was found near the Fore's new hotel. He has now decided to take the train.

THE LATE MR. C. B. RECORD.
Reproduced above is a portrait of the late Mr. C. B. Record, the founder and original head of the Record Co., Ltd., of Montreal, P.Q., and of the Record Co., Ltd., of Montreal, P.Q.

Previous to Mr. Record going into the manufacture of stoves, those who saw him in Canada were almost wholly of American manufacture. The character of the work turned out by the Record Co. was of the highest quality, and as a result a very large business soon grew up, largely owing to Mr. Record's selling industry and his perseverance against many obstacles.

Although Mr. Record retired from active business as far back as 1924, the solid basis on which he had established the industry has resulted in its growth from a sturdy pioneer into one of the largest stove manufacturing plants on the northern half of the American continent. With two large plants, one in Montreal and one in Montreal, the Record Co. is known from Halifax to Vancouver, and their "Columbia" and "Admiral" furnaces and "Juno" boilers are recognized as the standard of Canadian excellence.

THE WRINKLERS.

The basis of Mr. Foster's defense of the financial exploit of himself and his friends was that these transactions were matters of private business, with which the public had no proper concern and toward which public attention should not be called.

Supposing it had been true, as it was not true—that the transactions reviewed by the Insurance Commissioner were purely private transactions, would the public have any concern there? Supposing the funds with which these gentlemen speculated had been borrowed from private individuals would the public have had any concern in the manner in which they were handled? Not in the judgment of Mr. Foster himself. Speaking in the House during the past session he declared: "You cannot attribute separate private character and public position." Even if therefore the funds handled had been obtained from private sources the public would have been justified in measuring the public worth of Mr. Foster and his associates from the manner in which those funds were handled. This, according to the argument of Mr. Foster himself, but the funds were not "private funds" in the business acceptance of the term. In a very real sense there were "public" funds. True they were placed for the time in the hands of a small body of men, but these men had no proprietary interest in them farther than their contributions as members of the order to which the funds belonged, and were permitted to invest them only within the limitations of the insurance laws. The money with which Mr. Foster and his friends did their speculating was not the property of Dr. Ormishaw and the gentlemen who were associated with him in its management and control; that money belonged to the thousands of members of the L. O. F. scattered from the Atlantic to the Pacific whose contributions had amassed the fortune for the benefit of their dependent relatives when they themselves should be no more. Nor were these real owners of the funds consulted when it was proposed to turn them over to The Union Trust and its manipulators. To have secured the individual consent of every member of the Order would have been a slow and cumbersome task, but by so doing only could these funds have been placed in Mr. Foster's hands because of the nature of "private" funds. All the more reason, therefore, why the public position of Mr. Foster and his associates should be judged by the standard set up by themselves in the handling of money which was not their own, but which belonged to the very large class of the Canadian public who belong to the L. O. F.

A political party can be sufficiently defined as consisting of those in the state who are united in the advancement of certain political views. It is not essential that there be no differences of opinion on matters of minor importance, nor that the purpose aimed at be supported by all for the same reason, but it is essential that upon the main problems of public concern there be concurrence of opinion and unity of action. Without this there can be no party and no reason for the existence of a party. It follows from this that the welfare of a party is a matter of concern not only to the leaders, but to the rank and file who have chosen the leaders for the better advancement of the common end and upon whom the leaders in turn rely for the power to accomplish that end. When, therefore, the private conduct of a leader in a party or of a party is such as to compromise his public position and thereby paralyze the cause for which the party exists, it is surely poor consolation for the rank and file to be informed that in these "private" transactions of their leaders they have no concern.

There is a broader interest still, in democratic countries progress in government is made only by the conflict of parties supporting opposing views. The public, therefore, has an interest in every party and a right to expect some measure of public service from every party. Whichever party paralyzes its ability as a master of legitimate public concern, and

a matter from which public attention is not to be diverted by the petulant declaration of a party leader that his doings are nobody's business but his own.

Mr. Foster and his friends have discredited the Conservative party and destroyed its public usefulness more effectively than any opponents to a party could have done. The sophistry of these gentlemen aside, the plain fact remains that the people of Canada have lost faith in their "private character" and hence in the disinterestedness of their "public position." The performances of these gentlemen have wrecked their party and paralyzed its functions as a factor in the political life of the country. To the party which has to be from the humiliation and the country which has been robbed of the public services it had the right to expect, the only consolation offered by Mr. Foster is that his method of juggling with other people's money is purely his own affair.

VISION VS. MEMORY.

The Calgary Herald has been seeking opinions on the Elk Island Park—apparently in the main from those who have never seen it. Two were suffering from a mental impression of "soft and milky soil," one associating with this an idea of a region devoid of water. A swamp without water is surely a novelty—both in nature and in the mind. Yet a third was afflicted with fears lest this waterless slough should produce "swamp fever."

Two of the gentlemen grew allegorical and depicted their ideals of a buffalo pasture. One stipulated "Lots of shelter, rolling hills, brush, "prairie and sweet melior grass." The other suggested "Ideal grazing, "lots of grass." This would seem to indicate that two of the Herald's informants have seen the Elk Island Park and carried away at least a faint impression of its main advantages.

FLOATING STONE LAKE.

(Special Correspondence to Bulletin.) Mr. Boyle, M.P.P., was in Floating Stone Friday. He visited the home-owners and assured them that a good road would be built from Saddle Lake reserve to White Fish reserve, two other gentlemen were with him, and it was their business to inspect the work done here last fall. So all the people are rejoicing to think that at last the three government men reached this place in safety, for it was feared they had started and were lost in some of the mazes of the new government road that was built here last fall.

Mr. Jackson spent a week in Flinton visiting her parents. Mr. Charles Jackson was in Verre-Ville last week in the interest of the Floating Stone stone. Mr. McConnell is finishing his seedling this week. June 12. Charlie Greenstreet has gone to Lel and Lake to sow his oats. Since people are still putting in their garden seed, it is to be hoped the fall will be as late as the spring. Trees have only been in leaf five days (June 12).

VEGETIVILE.

(Special Correspondence to Bulletin.) Mohr and Hemm, gentlemen's furnishing stores of Vegreville, have sold out to Mr. Corbett, of Strathcona. The vegetable store of the district is to be cut down and a new building to be erected to accommodate the business. The vegetable store is having installed. The observer is to be the last of the vegetable store as the rest of the town can't crowd over his neighbors. Dr. Rush, one of the pioneers of the Vegreville district, is to take a much-needed rest. The doctor is set abroad for three or four months, whether his destination the doctor has not decided yet. Beatty & Calhoun of Brandon, Man., have a fine pedigree imported Clyde stallion at Bowick's stables. The animal is for sale. It is one of the finest animals that has come to this part of the country for a long time.

J. Duggan of Strathcona is leading his first consignment of steers. These go to Strathcona for the local market. Mr. Gilbert, who lives south of the town, had a narrow escape from death. He was driving a spirited team of colts when they took fright and Mr. Gilbert was thrown down and the wagon ran over his body and legs, the sinews of one of his feet being badly torn.

Threshing is now in progress on the Hutton farm. The year has been rather unfavorable for anyone who was delayed in threshing. The weather is still unfavorable for such work, but is forcing the grain forward marvelously.

A few are still sewing barley or green feed. Mr. McQuarrie recently had an adventure with his team, which might easily have had serious results. Mr. Wilson's Horse Hill recently lost a valuable horse, it being kicked by another horse.

Mr. F. L. Harris is down from Edmonton to start operations in the coal proposition. The Glen Harris digging outfit are going to perform the work. Mr. Dennis is going to sink several shafts on the Powell farm as well.

DILIGENCE.

(Special Correspondence to Bulletin.) Great Cornucopia (Edmonton) is making big beginnings now, and so seemingly out

of nothingness villages are constantly springing into existence in the Great Northwest. The nucleus of another has recently come into existence by the establishment of a new postoffice at Diligence, 30 miles northwest of Edmonton. Sometime ago a school was built in this flourishing part of a fertile territory, then came the post-office, a general store is about to be constructed and there are prospects of other erections in the near future. Settlement is advancing rapidly in all parts of Alberta and Diligence trusts its name will not fail to do its share in the work of bringing to its best this glorious Dominion.

Malt is the body of beer. It is what makes beer a food, rich in health-giving qualities. Malt is barley-grain, sprouted and partially grown. Most malsters force this process in three or four days time. Pabst takes the full eight days as required by Nature, with the result that Pabst gets a nutritious, strength-building malt.

It takes Pabst longer and it costs Pabst more to make this perfect malt, but this Eight-Day Malting Process retains in

SOME THINGS SECRETARY DON'T KNOW

From the Evidence of Mr. G. P. Wells, Secretary of the Mountain Lumbermen's Manufacturing Association Before the Special Parliamentary Committee on March 20th 1937

CHAPTER II.

Informal on One Point.
Q. On page 297 to 315 we find minutes regarding this selling office.
A. On page 315 I see there was a letter of the Coast association to the Mountain association. A meeting would be held on and in order to reduce prices to meet cuts on board and ship law now being made by the mountain mills, was discussed and secretary was requested to advise him of result of the meeting. That means, I suppose, that the Coast association was going to reduce prices to meet your association. Do you know anything about that?
A. I know that the Coast association did reduce their prices to such an extent that they very nearly put everything out of business. I don't know anything about the letter.
Q. You do not remember whether it had the effect of reducing the Mountain men's prices or not?
A. I do not know.

General Remark.

A. I remember a general rumor that the Coast people were reducing their prices were going to continue, and would take a hand in it.
Q. The Coast people would take a hand in it?
A. Yes.

Q. Was that about this time?
A. About that season.
Q. You do not recall anything about the letter?
A. I do not recall it.
Q. You do not remember whether it had the effect of reducing the Mountain men's prices or not?
A. I do not know.

No Fines.

Q. Did I understand you to say yesterday that there were no fines in your association?
A. No.
Q. No provision for fines?
A. No.
Q. Are the typewritten minutes yours?
A. I accept the first meeting—after that they are mine.
Q. Is your appointment in these?
A. I believe it is.
Q. Did you ever read them?
A. Yes.
Q. And will you say that this association has no provision for fines?
A. Yes; but that is not the case.

Fines Provided For.

Q. I see at the bottom of page 220 "All members of the association are expected to attend the meetings of the association in person or by proxy or pay a fine of ten dollars, and "corrupt" is written in brackets after that.
A. I presume I did. I remember that.
Q. And you say that there is a provision for a penalty?
A. Yes.

Not Collected.

A. Well, it has never been put in operation.
Q. Will you answer my question? There is a provision for a fine in your association.
A. Well, I have read the correspondence.
Q. Certainly, but you don't answer my question. I ask is there a provision for a penalty in your organization?
A. I say all I know.
Q. Having read this, do you still say it?

A. Well, there might have been. **Whence His Knowledge Begins.**
Q. My knowledge.
A. I have here a minute book, except 6. Are you any better than the correctness of this minute book?
A. I won't affirm the correctness of anything except what I have in charge in the office.
Q. What date would that be?
A. I went in there in October, 1935.
Q. I understand that you were in the office prior to October, 1935, you cannot make an affidavit, but regarding the thing since you are ready to affirm the correctness?
A. Yes. So far as that book is concerned my belief is that the formal minutes written in that book are correct ones.

Did Not Look Back.

Q. There are a few pages I am going to refer to. One page I am going to refer to is 183.
A. In the first place I do not know anything about those minutes at all. That is not part of the minutes, and you say you believe they are correct. Do you say that you believe they are correct?
A. Yes.
Q. I suppose you are familiar with them?
A. I never read them; I never had occasion to look back.
Q. So far as you are concerned there might not have been any minutes. On page 183 I find this:

Visiting Delegation.

"It was resolved that a committee to amount to three members meet the Coast association every alternate month. The Coast association to send a similar delegation to meet this association once to carry out the plan. Carried."
In regard to that entry, you cannot state anything from your own knowledge.
Q. I never heard of the proposition until this point.
A. I was written on 25th March, 1935.
A. I don't know anything about it.
Q. When did you go in?
A. October, 1935, I was appointed secretary at the time I went to Revelstoke in September 28, 1935. I went and took charge in the office. What were you doing before this?

Firm Was Member Previously.

Q. Were you a member of the association, or was your firm?
A. The firm was.
Q. Did you attend any of the meetings?
A. I should have thought that the

membership fee would be important. That goes to show that it is a different thing entirely from what it was.
Q. On page 189 I find this:
"It was resolved that a membership fee of \$20 per year be levied on the present year and afterwards by new members only."
A. I don't think it was ever carried.
Q. What I want you to understand is that I am asking you if that is the first you heard of it.
A. I don't know whether it is carried.
Q. You may have heard of it, or you may not?
A. Yes.
Q. You would swear that you have never looked over the minutes or the correspondence?
A. Yes sir.

Another Unknown Resolution.
Because page 181 is an attempt to refer to it page 183 in this exhibit Q. It says the letter of the secretary of the Coast association stating that they had appointed an accountant to audit and check the books of their members with a view to prevent price cutting was read and ordered to be filed. Do you know anything about that?
A. No sir.
Q. You don't know anything about the letter which was read and ordered to be filed?
A. No sir.

No Communication With Coast Association.

Q. You have never had any communication with the Coast company to your own company?
A. Never had any.
Q. You have had more or less contact with the Coast company?
A. No.
Q. Do you mean there was no correspondence in connection with this?
A. Yes.

Bill Unintended.

Q. Do you mean that you have not found any amongst your correspondence that would indicate that the association was instructed "to write to the secretary of the Coast association to ascertain the nature of the agreement which has been made between the Coast association and the Mountain Lumbermen's company as to the maintenance of the sales to retailers will be according to list." You know nothing about that?
A. No sir.
Q. There is nothing in the correspondence?
A. I don't know.

The First I Heard of.

Q. You are left in the dark so far as being secretary of the association goes?
A. Yes.
Q. The Coast association correspondence with the Mountain association, the prevention of cutting the prices in getting out the declaration required from the manager and the auditor appointed. This plan was fully carried out. This was done with respect to this association?
A. No sir.
A. Coming in as you do three or four months afterwards and having been one and a half years secretary of the association, you know nothing about it.
Q. Don't you think these are things about which a secretary would be likely to know?
A. I had other things to do.

Had Other Business.

A. I had other things to do. The correspondence with smaller organizations—the matter of cutting prices—these are things which you don't know your position about. I don't understand and be familiar with it.
A. The matter of keeping up prices.
Q. Are not these proposals keeping up prices?
A. I know nothing about it.
Q. Did you have any way accomplished in the past?
A. Yes.
Q. It was simply dropped?
A. Yes.
Q. Then penalty has never been entered?
A. No.
Q. Knowledge.
Q. Who, Mr. Jones of your association?
A. The former president of the association.
Q. The Weaver was a president, was he not?
A. Yes.
Q. Did he think so. He has been president.

CHAPTER III.

To Start Retail Association.

Q. On page 183 Mr. Jones stated he would call a meeting at Calgary for the purpose of starting a certain association at Calgary. Do you know anything about that? It was taken up by the Mountain and Mountain Lumbermen's association and Mr. King that at the next meeting should have Mr. Jones' statement as to the starting of the retail association?
A. Yes. It was in connection with the discussion which had previously taken place with regard to manufacturing yards, and Mr. Jones stated that he would call a meeting to start a retail association.
Q. Is there any question between the two companies with regard to manufacturing yards?
A. What two companies?

No Arrangement.

Is there an arrangement between the Coast and the Mountain Lumbermen's association which will make corresponding advances?
Q. Well, any arrangement at all about keeping alike about prices?
A. No. There is no arrangement of that kind.
Q. Then what does this correspondence between the secretary of the British Columbia Mountain Lumbermen's association and the secretary of the other association about making the corresponding advances in several lines, "as done by us," mention his name in that way?

correspondence and telegrams between the association as to advances of prices. Is not that an arrangement?
A. No.
Q. What would you call it?
A. "Just Advice."
Q. I would call it an advice that they were going to put into their prices according to what was done by us.
Q. It doesn't say regulate, but that the prices will be advanced.
Q. I don't know whether it would altogether depend upon what we did.
Q. Do you remember the correspondence with the Mountain people?
A. No, I don't.
Q. You have never had it brought to your notice?
Q. And you don't agree with me?
Q. What is the reason for making a compromise like that?
Q. The representative of both associations agreed to do what was advisable.
A. I don't know any reason for it.
Q. These men doing a large business and they are bound to the rule—in fact as to how much money they are getting from the manufacturers.
A. I don't know what object there would be except to show that if they were to do it, it would be necessary to advance prices it would depend upon what was done by the Mountain people.

Q. What is the idea about making this arrangement? If they are prepared to make advances then it is a compromise like that.
Q. What do you suggest I cannot think of anything.
Q. We have had more or less contact with the Coast company?
A. No.
Q. Do you mean to say to believe that the compromise with you to advance when you advanced, but after that that correspondence there was an agreement on your part to keep in harmony with their prices?
A. Well, if they were going to do it, I would not think that it would not be a corresponding promise on our part.
Q. Was there no agreement on your part to keep in harmony with their prices?
A. It is understood.

Well, presume it is understood that we should keep in harmony with them.
Q. I presume it was understood that you would keep in harmony with all their prices?
A. Yes.
Q. As a matter of honor?
A. As a matter of honor.
Q. You probably wrote similar letters to the Coast people?
A. I may.
Q. Did you?
A. I don't know.

Q. Do you know that if in your correspondence there is nothing to intimate that your association is keeping in harmony with their prices?
A. I don't think so.
Q. Is there anything asking them to keep up to your prices?
A. I don't do that.
Q. Do you think that after these letters that you are free to sell as you please?
A. Merely a Matter of Honor.

A. Well, I don't know. We are free to sell as we like, there is no matter of honor about it.
Q. But you say in your letter not to cut prices below what existed with the Coast people?
A. I don't know. I presume that there was. I don't know whether there was or not.
Q. Well, now, do you consider that your association was in honor bound to the Coast people?
A. I don't know. I presume that there was. I don't know whether there was or not.

Q. I am not asking about your own prices, but about cutting on the figures arranged with them. Would you say that the prices arranged with the Coast people to maintain a certain price?
A. I am not asking about your own prices, but about cutting on the figures arranged with them. Would you say that the prices arranged with the Coast people to maintain a certain price?
A. I am not asking about your own prices, but about cutting on the figures arranged with them. Would you say that the prices arranged with the Coast people to maintain a certain price?

Bound to Maintain Price.

A. I think so.
Q. Do you think you were in honor bound to the Coast people to maintain a certain price?
A. In a way.
Q. What do you mean by "in a way"? You were in honor bound to maintain a certain price?
A. I don't know. I don't know whether there was a distinct understanding that we should maintain certain prices with the Coast people.
Q. You say you were in honor bound to maintain a certain price to them, were you?
Q. I don't know. I don't know whether we were in honor bound to maintain a certain price to them, were you?
Q. What do you mean by "in a way"? You were in honor bound to maintain a certain price?
A. I mean that if we set a price list of our own it is understood that we will maintain it as well as the Coast people.

Coast People Would Have a Kick.

Q. And you have honor bound to the Coast people? Would they have any kick with you if you did not do the square thing?
A. I presume they would have a reasonable kick.
Q. You think they would have a reasonable kick if you started cutting prices?
A. It would be a breach of good business.
Q. It would be a breach of honor.
A. No, a breach of good business principles.

Not in a Joint Conference.

Q. You were not in a joint conference did you not? Did you not talk about it?
A. Yes, we did.
Q. You came to any understanding?
A. Yes.
Q. Have you come to any understanding about prices with them?
Q. Then I know it.
Q. You talked prices with them, did you not come to an understanding?
A. No.
Q. What did you talk prices with them for?

A. We discussed prices of various things and what we considered should be charged for them.
Q. Were there any people who were new at this meeting?
A. I believe so.
Q. What?
A. Mr. Heaps and Mr. Lewis, I think.

Q. But you never came to an understanding about prices in your conference with those people?
A. No.
Q. Not came to any understanding about anything?
A. I depend on what you mean by understanding.

Q. What do you mean?
A. We discussed various things pertaining to the lumber business, whatever we considered was reasonable. Do you consider that an understanding about anything?
Q. You came to a conclusion as to what was advisable to do, and you were agreed on that?

A. We were.
Q. The representative of both associations agreed to do what was advisable?
A. Yes.
Q. For example, what did they agree on?

A. I do not know.
Q. Were they honor bound to do what was advised afterwards?
A. I do not know.

Free, But—

Q. They were perfectly free, and you think that they would expect another perfectly if they did not act in harmony?
Q. Do you not think they would?
Q. Do you think they would have decided the matter if they had not agreed in harmony in doing that they would be disappointed?
A. Yes.
Q. Therefore, there was at least that about it they adopted a certain mind or conclusion regarding their business, and they were either bound to that or they would be disappointed?

A. Yes.
Q. If your local dealer did not handle the Sunshine write direct to us for free booklet.
A. Yes.

Sunshine FURNACE

The Sunshine is differently and better constructed than common furnaces. It's stronger, safer, more healthful. The dome, the two sections of the flue, and the damper are all securely fastened together by our famous "cup joint." Three "cup joints" in all, you see. All sections, you will notice, fit together perfectly, and are lined with a layer of asbestos cement, which unites them so firmly together that they become, in every purpose, one solid piece of metal. Can never spring or fall apart.

And that's not all! The top of the dome is fastened to the sides with cement and boiler rivets, making the Sunshine just as smoke, gas, heat and dust tight as a steam boiler. From a hygienic standpoint it takes precedence in the furnace world.

Notice, too, the Sunshine is equipped with an automatic gas damper. This damper automatically opens when the gas in the furnace reaches a certain pressure and allows it to escape up the chimney. Eliminates all danger of an explosion or gas escaping through the registers. Safest as well as most healthful, easiest managed, cleanest, greatest labor-saving and fuel-economizing furnace you can buy.

If your local dealer does not handle the Sunshine write direct to us for free booklet.

After a man with a gun. A man named Walsh is now under arrest at the police court on a charge of theft. He may also be held in another charge.

Last night about eight o'clock, Walsh, who has been around the Elms Hotel for some days, was arrested on the opposite side of a street armed with a Martin rifle, with which, it is said, he was awaiting the appearance of the hotel bartender, whom, it is alleged, he was about to shoot. When captured, however, it was found that the gun was not loaded.

The charge on which he is at present held is one of theft. The information given was to the effect that Walsh picked a watch from the pocket of a while it was hanging in the basement. The watch was soon missed. Walsh was suspected, and later in the day when he was found at the Queen's Hotel he handed it over to the owner.

COAL COMMISSION HERE.

The coal commission will reach Edmonton on Thursday afternoon. Meetings of the commission will commence in Edmonton on Friday, June 21st, at 10 a.m. It is not yet known where the sessions will be held, but announcement will be made later.

HAND-PAINTED CHINA.

Jackson Brothers, our leading china dealers, have made arrangements with the Pickard Studio, of Chicago, to give an exhibit in their store.

In this exhibit will be shown hundreds of the most beautiful specimens of the art of china painting ever produced.

Some of the pieces on exhibition are for sale, but anybody who wishes a duplicate of any of these pieces can have it painted to order, and delivered at any time in the future.

They will make a very close price on any pieces ordered in this way, as they have no money tied up in the special pieces which are painted to order, and can afford to sell in this way cheaper than where they carry the goods in stock.

Jackson Brothers are, however, going to put some of Pickard's hand-painted china on work for their fall trade, and are particularly anxious to get an expression of opinion from the ladies of our city who are interested in things artistic, as to the merits of the new designs.

This exhibit commences Wednesday morning, June 20th, and lasts until Thursday noon (June 21st).

CINDERELLA

The "Cinderella" Custom Grade Shoe

For Spring 1907, stands out from among the commonplace. They may aptly be named "WORKS OF ART." Until you have seen them, or still better, enjoyed the ease and comfort or wearing one of these models, you cannot realize what progress has been made in the art of shoe-toggery. You will find them not only smart in style and full of beauty, but the comfort you have been looking for.
